

Newbornüberzug

Product information "Lalizou newborn cover"

With the Lalizou Newborn cover you create a feeling of narrowness for your baby, which in the last 9 months it has learned to love in your womb. The Newborn covering is made of 100% flannel cotton fabric, which lets your baby experience its first dreams cosily, softly and safely in its baby nest. Especially in the puerperium you profit immensely from the sleep phases of your baby, because during this time you should replenish your own power reserves.

The Lalizou Newborn covering is machine washable at 60°C (140°F). We recommend that you do not use bleaching agents, but use stain removers and hygienic rinsers instead. To extend the service life of your Newborn covering, you should use a washbag.

Application period for babies at least up to 4 months of age, Co-Sleeping, sleep aid, usable Indoor & Outdoor, hypoallergenic, breathable, heat-regulating

100% beaver-cotton, free of harmful substances according to OEKO-TEX® 100 product class 1, machine washable at 60°C (140°F),

Made in Turkey

Application information

Open the drawcord and place the newborn cover on top of the Lalizou baby nest. The drawcord must be at the bottom end of the Lalizou. Now tighten the drawcord firmly together, while doing so, the cover should also be pulled over the mattress. In order to achieve the perfect result, you will have to repeat the process several times. The more you tighten the cover, the more you will bend the cushion tube into the bed surface. As a result, your baby gets a more intense feeling of tightness. Please keep in mind, that the back of your baby is resting on the mattress all the time. Having achieved the perfect result, tie a knot and a bow behind the spring ball.
